

Dominica

Women, Business and the Law 2020 presents an index covering 190 economies and structured around the life cycle of a working woman. In total, 35 questions are scored across the eight indicators. Overall scores are then calculated by taking the average of each indicator, with 100 representing the highest possible score. Data refer to the laws and regulations that are applicable to the main business city (Roseau). Different rules may apply in other jurisdictions so local legislation should be reviewed. Based on this approach, **Dominica scores 62.5 out of 100**. The overall score for Dominica is lower than the regional average observed across Latin America & Caribbean (79.2).

Dominica - Scores for Women, Business and the Law 2020

Relative Strengths

When it comes to constraints related to marriage, and gender differences in property and inheritance, Dominica gets a perfect score.

Areas for Improvement

However, when it comes to constraints on freedom of movement, laws affecting women's decisions to work, laws affecting women's pay, laws affecting women's work after having children, constraints on women's starting and running a business, and laws affecting the size of a women's pension, Dominica could consider reforms to improve legal equality for women.

For example, one of the lowest scores for Dominica is on the indicator related to laws affecting women's work after having children (the WBL2020 Parenthood Indicator). To improve on the Parenthood Indicator, Dominica may wish to consider making paid leave of at least 14 weeks available to mothers, making the government administer 100% of maternity leave benefits, making paid leave available to fathers, making paid parental leave available, and prohibiting the dismissal of pregnant workers.
