

# South Africa

*Women, Business and the Law 2020* presents an index covering 190 economies and structured around the life cycle of a working woman. In total, 35 questions are scored across the eight indicators. Overall scores are then calculated by taking the average of each indicator, with 100 representing the highest possible score. Data refer to the laws and regulations that are applicable to the main business city (Johannesburg). Different rules may apply in other jurisdictions so local legislation should be reviewed. Based on this approach, **South Africa scores 88.1 out of 100**. The overall score for South Africa is higher than the regional average observed across Sub-Saharan Africa (69.9).

## South Africa - Scores for Women, Business and the Law 2020

## Relative Strengths

When it comes to constraints on freedom of movement, laws affecting women's decisions to work, laws affecting women's pay, constraints related to marriage, constraints on women's starting and running a business, and gender differences in property and inheritance, South Africa gets a perfect score.

## Areas for Improvement

However, when it comes to laws affecting women's work after having children, and laws affecting the size of a women's pension, South Africa could consider reforms to improve legal equality for women.

For example, one of the lowest scores for South Africa is on the indicator related to laws affecting the size of a women's pension (the WBL2020 Pension Indicator). To improve on the Pension Indicator, South Africa may wish to consider equalizing the ages at which men and women can retire with full pension benefits, equalizing the ages at which men and women can retire with partial pension benefits, and accounting for periods of absence from work due to childcare in pension benefits.

## Recent Reforms (2018-2019)

No reforms impacting the WBL2020 indicators have been observed during the past two years.

	QUESTION	ANSWER	LEGAL BASIS
