

Denmark

Women, Business and the Law 2021 presents an index covering 190 economies and structured around the life cycle of a working woman. In total, 35 questions are scored across the eight indicators. Overall scores are then calculated by taking the average of each indicator, with 100 representing the highest possible score. Data refer to the laws and regulations that are applicable to the main business city (Copenhagen). Different rules may apply in other jurisdictions so local legislation should be reviewed. Based on this approach, **Denmark scores 100 out of 100**. The overall score for Denmark is higher than the regional average observed across High income (OECD) countries (95.1). Within the High income: OECD region, there are 10 economies that score 100 out of 100.
