

# North Macedonia

*Women, Business and the Law 2022 (WBL2022)* presents an index covering 190 economies and structured around the life cycle of a working woman. In total, 35 questions are scored across eight indicators. Overall scores are then calculated by taking the average of each indicator, with 100 representing the highest possible score. Data refer to the laws and regulations that are applicable to the main business city (Skopje). Different rules may apply in other jurisdictions so local legislation should be reviewed. Based on this approach, **North Macedonia scores 85 out of 100**. The overall score for North Macedonia is higher than the regional average observed across Europe and Central Asia (84.1). Within the Europe and Central Asia region, the maximum score observed is 94.4 (Cyprus).

## North Macedonia - Scores for Women, Business and the Law 2022

### Relative Strengths

When it comes to constraints on freedom of movement, laws affecting women's decisions to work, constraints related to marriage, constraints on women starting and running a business, and gender differences in property and inheritance, North Macedonia gets a perfect score.

### Areas for Improvement

However, when it comes to laws affecting women's pay, laws affecting women's work after having children, and laws affecting the size of a woman's pension, North Macedonia could consider reforms to improve legal equality for women.

For example, one of the lowest scores for North Macedonia is on the indicator measuring laws affecting women's pay (the WBL2022 Pay indicator). To improve on the Pay indicator, North Macedonia may wish to consider mandating equal remuneration for work of equal value, and allowing women to work in an industrial job in the same way as men.

### Recent Reforms

No reforms were observed during the past year (October 2nd, 2020 – October 1st, 2021).

Further data details for North Macedonia are available at:
