*Women, Business and the Law 2023* (WBL2023) presents an index covering 190 economies and structured around the life cycle of a working woman. In total, 35 questions are scored across eight indicators. Overall scores are then calculated by taking the average of each indicator, with 100 representing the highest possible score. Data refer to the laws and regulations that are applicable to the main business city (Belize City). Different rules may apply in other jurisdictions so local legislation should be reviewed. Based on this approach, **Belize scores 79.4 out of 100**. The overall score for Belize is lower than the regional average observed across Latin America and the Caribbean (80.9). Within the Latin America and the Caribbean region, the maximum score observed is 95 (Peru).

## Belize - Scores for Women, Business and the Law 2023

## Relative Strengths

When it comes to constraints related to marriage, gender differences in property and inheritance, and laws affecting the size of a woman's pension, Belize gets a perfect score.

## Areas for Improvement

However, when it comes to constraints on freedom of movement, laws affecting women's decisions to work, laws affecting women's pay, laws affecting women's work after having children, and constraints on women starting and running a business, Belize could consider reforms to improve legal equality for women.

For example, one of the lowest scores for Belize is on the indicator measuring laws affecting women's pay (the WBL2023 Pay indicator). To improve on the Pay indicator, Belize may wish to consider mandating equal remuneration for work of equal value, and allowing women to work in an industrial job in the same way as men.

## Recent Reforms

No reforms were observed during the past year (October 2nd, 2021 – October 1st, 2022).
