

Haiti

Women, Business and the Law 2023 (WBL2023) presents an index covering 190 economies and structured around the life cycle of a working woman. In total, 35 questions are scored across eight indicators. Overall scores are then calculated by taking the average of each indicator, with 100 representing the highest possible score. Data refer to the laws and regulations that are applicable to the main business city (Port au Prince). Different rules may apply in other jurisdictions so local legislation should be reviewed. Based on this approach, **Haiti scores 61.3 out of 100**. The overall score for Haiti is lower than the regional average observed across Latin America and the Caribbean (80.9). Within the Latin America and the Caribbean region, the maximum score observed is 95 (Peru).

Haiti - Scores for Women, Business and the Law 2023

Relative Strengths

When it comes to laws affecting women's pay, Haiti gets a perfect score.

Areas for Improvement

However, when it comes to constraints on freedom of movement, laws affecting women's decisions to work, constraints related to marriage, laws affecting women's work after having children, constraints on women starting and running a business, gender differences in property and inheritance, and laws affecting the size of a woman's pension, Haiti could consider reforms to improve legal equality for women.

For example, one of the lowest scores for Haiti is on the indicator measuring constraints related to marriage (the WBL2023 Marriage indicator). To improve on the Marriage indicator, Haiti may wish to consider enacting legislation protecting women from domestic violence, allowing women to obtain a divorce in the same way as a man, and giving women the same rights to remarry as men.

Recent Reforms

No reforms were observed during the past year (October 2nd, 2021 – October 1st, 2022).

Further data details for Haiti are available at:
